

Dear Honorable Commission,

Thank you for accepting my short comment. I support the position of the American Radio Relay League regarding the petition for a new Amateur Radio allocation at 5.25 to 5.4 MHz, 60 Meters.

More importantly, I would like to see a greater effort to unify a worldwide, primary Amateur Radio allocation from 7 to 7.3 MHz, 40 Meters. I hope that any kind consideration regarding 60 Meters will not adversely affect a desirable outcome for 40 Meters.

Yours truly,
Neil, WB2CIR
